Beste gewaardeerde klanten,

Met veel genoegen presenteren wij u onze Najaarsveilingcollectie.

Zoals velen van u ongetwijfeld hebben opgemerkt, is deze catalogus aanzienlijk dikker en zwaarder dan u van ons gewend bent. Schulman wordt doorgaans beschouwd als een boutique-veilinghuis in het hogere segment, waar kwaliteit altijd belangrijker is dan kwantiteit. Onze aandacht gaat uit naar de unieke kenmerken, zeldzaamheid en schoonheid van elk afzonderlijk object, niet naar het organiseren van veilingen op industriële schaal.

Voor deze veiling hebben wij echter besloten om beide te bieden. Deze catalogus bevat een uitzonderlijk ruime selectie van zeldzame, fraaie en historisch belangrijke stukken. En er staat nog veel meer op stapel. Vanwege beperkingen in drukcapaciteit en verzendgewicht hebben wij een aantal collecties doorgeschoven naar onze veilingen van maart 2027. De eerder aangekondigde Selectieveiling 395 en de Goudenrijder-collectie zullen daarom worden opgenomen in onze Winterveiling van december. Uiteindelijk moet ook een veilingcatalogus nog gewoon door de brievenbus passen.

Deze veiling markeert bovendien een bescheiden maar betekenisvol jubileum: onze vijfde Scandinavische veiling. Het lijkt nog maar kortgeleden dat wij onze eerste veiling in Kungsbäck organiserden, en inmiddels presenteren wij al het eerste deel van de Professor M. Adolphson's collection of Carl XII's coinage, aangevuld met een indrukwekkende selectie historische penningen en Scandinavische rariteiten.

Als onderdeel van onze uitgebreide dienstverlening organiseren wij van 9 tot en met 11 oktober kijklagen in een van mijn favoriete steden: Stockholm. Wij kijken ernaar uit zowel lokale verzamelaars als internationale bezoekers daar persoonlijk te mogen verwelkomen. De penning op de omslag weerspiegelt perfect het historische belang van deze veiling. Het betreft een unieke gouden herinneringspenning, uitgereikt ter ere van de moedige studenten die tijdens het Beleg van Groningen de wapens opnamen ter verdediging van de stad. Tijdens mijn eigen studententijd bezocht ik regelmatig vrienden aan de Rijksuniversiteit Groningen. Ik herinner mij nog goed dat het na een avond in De Drie Gezusters al een uitdaging was om sommigen vóór het middaguur uit bed te krijgen, laat staan om hen naar een slagveld te sturen. Kennelijk lagen de prioriteiten van studenten in de zeventiende eeuw toch iets anders.

Daarnaast bevat deze veiling een aantal stukken die praktisch uniek zijn. Zo bieden wij onder meer een Proof 3 Gulden van Willem I aan en het afgekeurde ontwerp voor de Wilhelmina-gulden van 1898, een munt waarvan wordt aangenomen dat deze uniek is. Samen met vele andere topstukken vormen zij een buitengewone kans voor verzamelaars.

Tot slot wil ik onze inzenders hartelijk bedanken voor hun voortdurende vertrouwen en steun. Evenzeer dank ik het gehele Schulman-team, dat met grote toewijding, expertise en oog voor detail heeft gewerkt aan de totstandkoming van deze catalogus.

En aan onze bidders, zowel vertrouwde gezichten als nieuwe deelnemers: ik wens u veel succes en zoals altijd, happy hunting!

Dear Valued Customer,

We are delighted to present our Autumn Auction Collection.

As many of you will have noticed, this catalogue is somewhat thicker and heavier than our usual offering. Schulman is generally regarded as a high-end boutique auction house, where quality takes precedence over quantity. Our focus has always been on the unique characteristics, rarity, and beauty of each individual lot, rather than on creating auctions by sheer volume.

For this sale, however, we decided to offer both. This catalogue presents an abundance of rarity, beauty, and historical significance, featuring an exceptionally broad selection of material from across the numismatic spectrum. With numerous collections still waiting in the wings, some consignments have been scheduled for our March 2027 sales due to printing capacity and shipping weight considerations. The previously announced Selection Sale 395 and the Gold Rider Collection will instead be included in our December Winter Sale. After all, even an auction catalogue must still fit through the letterbox.

This sale also marks a small but meaningful milestone: our fifth Scandinavian Auction. It feels like only yesterday that we held our inaugural sale in Kungsbäck, and yet here we are, presenting Part I of Professor M. Adolphson's collection of Carl XII's coinage alongside a remarkable selection of historical medals and Scandinavian rarities.

As part of our expanded services, we are pleased to offer lot viewing in one of my favorite cities, Stockholm, from 9 to 11 October. We look forward to welcoming both local collectors and international visitors who wish to view the auction highlights in person.

The cover piece perfectly reflects the historical importance of this sale. It is a virtually unique gold medal awarded in remembrance of the courageous students who took up arms during the Siege of Groningen and helped defend the city in 1672. Having spent some of my own student years visiting friends at the University of Groningen, I remember it being a struggle to persuade many of them to leave their beds before noon after an evening at De Drie Gezusters, let alone march into battle. I suppose student life was rather different in the seventeenth century.

The auction also includes a number of pieces that are unique in private hands. Among them are a Proof 3 Gulden of Willem I and the rejected 1898 Wilhelmina 1 Gulden pattern. Together with many other exceptional rarities, they represent the kind of opportunities that collectors may encounter only once in a generation.

Finally, I would like to extend my sincere appreciation to our consignors for their continued trust and support. I am equally grateful to the Schulman team, who have worked tirelessly to bring this catalogue to life with their expertise, dedication, and attention to detail.

And to our bidders, both familiar faces and newcomers alike: as always, happy hunting.

Managing Director

Kära kunder,

Det är med stor glädje som vi presenterar vår höstauktion.

Som många av er säkert redan har märkt är denna katalog både tjockare och tyngre än våra vanliga utgåvor. Schulman betraktas ofta som ett exklusivt boutiqueauktionshus där kvalitet alltid går före kvantitet. Vårt fokus ligger på varje objekts unika karaktär, sällsynthet och skönhet snarare än på att erbjuda största möjliga antal objekt.

I denna auktion har vi dock valt att erbjuda båda delarna. Katalogen innehåller ett ovanligt stort urval av sällsynta, vackra och historiskt betydelsefulla objekt. Och ännu fler samlingar väntar runt hörnet. På grund av begränsningar i tryckkapacitet och fraktvikt har vissa samlingar flyttats till våra auktioner i mars 2027. Den tidigare annonserade Selectionsauktionen 395 och Gold Rider-samlingen kommer därför att inkluderas i vinterauktionen i december. Trots allt måste även en auktionskatalog kunna komma igenom brevlådan.

Denna auktion markerar dessutom en liten men betydelsefull milstolpe: vår femte skandinaviska auktion. Det känns som om det bara var igår vi höll vår första auktion i Kungsbacka, och nu presenterar vi redan den första delen av Professor M. Adolphson's collection of Carl XII's coinage-samlingen tillsammans med ett imponerande urval historiska medaljer och skandinaviska rariteter.

Som en del av vår utökade service erbjuder vi även visningar i en av mina favoritstäder, Stockholm, mellan den 9 och 11 oktober. Vi ser fram emot att välkomna både svenska samlare och internationella besökare som vill studera auktionens höjdpunkter på plats.

Omslagsmedaljen speglar på ett utmärkt sätt auktionens historiska betydelse. Det är en unik guldmedalj till minne av de modiga studenter som tog till vapen under belägringen av Groningen och deltog i stadens försvar. Under mina egna studentår besökte jag ofta vänner vid universitetet i Groningen. Efter en kväll på De Drie Gezusters kunde det vara svårt nog att få dem ur sängen före lunchtid, än mindre att föreställa sig dem på väg ut i strid. Studentlivet såg uppenbarligen annorlunda ut på 1600-talet.

Auktionen innehåller dessutom flera objekt som närmast kan beskrivas som unika. Bland höjdpunkterna finns en Proof 3 Gulden av Willem I samt det förkastade mönstret till Wilhelmina 1 Gulden 1898, ett mynt som anses vara unikt. Tillsammans med många andra exceptionella rariteter erbjuder dessa objekt samlare möjligheter som sällan uppstår.

Avslutningsvis vill jag rikta ett varmt tack till våra inlämnare för deras fortsatta förtroende och stöd. Jag vill också tacka hela Schulman-teamet, som med stort engagemang, kunnande och noggrannhet har arbetat med denna katalog.

Och till våra budgivare, både återkommande och nya: som alltid önskar jag er lycka till och god jakt.

Detta exemplar går att spåra ända tillbaks till A. Levins samling som såldes på Bukowskis 1894. Därefter har myntet tillhört många namnkunna samlare så som C. Snoilsky, C. W. Burmeister, I. Berghman, S. Svensson, L-E. Boman & A Kihlberg. Åtsidan till detta mynt, kallat 'Christin', är graverat av den franske myntgravören Jean D'Armand medan fränsidan är graverad av Petter Michelsson. Valören Cristin slogs initialt till vikten av 2 riksdaler, men efter Riksrådets beslut i maj 1649 antogs istället valören 8 mark. Typen är endast känd i två exemplar på den privata marknaden.

Christina's 2 daler 1649 – a world trade coin! The seafarer and explorer Ferdinand Magellan (1480–1521) sailed for Portugal and Spain and became the first person to circumnavigate the globe. From Europe he reached Indonesia and the Philippines via South America across the Pacific Ocean, and rounded the Cape of Good Hope in Africa on the return voyage to Europe. This opened up trading opportunities that these prominent nations took advantage of, together with the Netherlands, which expanded through the East India Company. They carried out enriching trade expeditions, exporting the highly sought-after pure European copper and bringing back porcelain, textiles and precious jewellery items. During the 17th and 18th centuries trade was extremely intensive, and the Transylvanian copper (Hungarian plates) gradually paved the way for the great innovation of Swedish copper and plate coins of the highest possible purity! At this auction we can offer Queen Christina's issued 2 daler copper plate coin from the first collectible year, 1649. This is in practice the highest denomination and the earliest available year of the first coins available to private coin collectors worldwide. Together with the 10-daler plates of 1644 and 1645, they are outstanding "world coins" whose significance in trade history complements the unique role this Swedish innovation holds in numismatics. These early plate coins have almost entirely perished, as they generated large export revenues for Sweden and were either reworked into other utilitarian objects or ended up on the seabed after shipwrecks. This specimen of Christina's 2 daler 1649 originates from Sven Svensson's famous coin collection and was offered at auction in Stockholm by Hirsch Coin Dealers in 1966. It is the finest example in private hands. Two other specimens are barely identifiable and must be regarded as academic footnotes. This prestigious "world coin" possesses outstanding significance and weight in a world collection of trade coins and is an important cog in the development of global trade history.

Vi har enbart hittat ett enda annat exemplar av denna opublicerade variant sedan tidigare. Parallell kan dras till 1802 års skillingar (och halvskillingar) som i de (troligtvis) första präglingarna förseddes med en större och bredare krona, men som sedan förkastades då den var svår att få bra utpräglad. Tydligen hade man inte lärt sig av detta misstag när den nya designen togs fram för Karl XIII 's skillingar.

Alle potentiële bidders vergewissen zich ervan dat zij door het plaatsen van biedingen op onze veilingen akkoord gaan met onze algemene verkoopvoorwaarden, ongeacht hoe het bod is geplaatst.

I.Definities

De volgende woorden hebben in dit document de volgende betekenis:

1. “Hoogste Bieder” betekent de organisatie of persoon die het hoogste bod heeft uitgebracht op een kavel op het moment van toeslag en is daarom de Koper van het kavel;
2. “Goederen” betekent de/het veilingkavel(s) welk(e) word(en) aangeboden en verkocht aan de Hoogste Bieder door de Veilinghouder;
3. “Veilinghouder” betekent Schulman B.V., Jan Luijkenstraat 94, 1071 CV, Amsterdam, Nederland;
4. “Bieder” betekent de organisatie of persoon welke een bod plaatst op een veilingkavel;
5. “Toeslag” betekent het moment van de hamerslag door de veilingmeester in de veilingzaal en de goedkeuring van de notaris;
6. “Internet Live Biedsysteem” betekent onder andere, maar niet uitsluitend, de software, de app enz... aangeboden door de Veilinghouder waar de Bidders en gebruik van kunnen maken om op de veiling te bieden en/of aan te kopen.

II.Algemeen

1. Deze voorwaarden gelden bij iedere verkoop van Goederen door de Veilinghouder aan de Hoogste Bieder en sluiten alle andere voorwaarden aangeduid of aangeboden door de Hoogste Bieder uit, zowel in de onderhandelingsfase als in ieder ander stadium van de verkoop, tenzij de Hoogste Bieder uitdrukkelijk op schrift verklaart aanvullende voorwaarden te vragen en deze door de Veilinghouder voorafgaand aan de veiling schriftelijk zijn geaccepteerd.
2. Elke wijziging van deze Algemene Voorwaarden (met inbegrip van bijzondere voorwaarden en tussen partijen overeengekomen voorwaarden) zijn niet van toepassing, tenzij schriftelijk bevestigd door de Veilinghouder.
3. De Veilinghouder werkt als bemiddelaar tussen de aanbrengrer van de Goederen en de Bidders.
4. De Veilinghouder is gerechtigd potentiële Bidders uit te sluiten van de veiling zonder opgaaf van redenen.
5. Schriftelijke biedingen worden pas uitgevoerd na een schriftelijke bevestiging van acceptatie van de Veilinghouder aan de Bieder.
6. De Veilinghouder behoudt zich het recht voor de veiling in zijn geheel of een gedeelte van de volgorde te wijzigen of te annuleren zonder voorafgaande publicatie.
7. De Veilinghouder is gerechtigd om af te wijken van de geldende bidstappen.
8. Als in de zaal een bod uitgebracht wordt dat gelijk staat aan het hoogste schriftelijke bod, dan heeft de zaalbidder voorrang.
9. Schriftelijke biedingen worden behandeld in volgorde van binnenkomst.

III.Hoogste Bieder, Prijs, Commissie en Betaling

1. De veiling gaat bij opbod in Euro aan de Hoogste Bieder tegen contante betaling met een opgeld van 24% over het toegeslagen bedrag.
2. Verzendkosten, import- en exportkosten en Paypal/ Bankkosten zijn niet in de verkoopprijs inbegrepen en zijn voor de rekening van de koper.
3. De Veilinghouder behoudt zich het recht voor om van vooruitbetaling af te zien en de Goederen op factuur te leveren.
4. Wanneer Goederen op factuur worden geleverd geldt er een betalingstermijn van 15 dagen voor de Verkoopprijs, de commissie en overige kosten vanaf het moment waarop de factuur gedateerd is door de Veilinghouder, tenzij schriftelijk een andere betalingstermijn is overeengekomen tussen de Hoogste Bieder en de Veilinghouder. In het geval dat er niet op factuur wordt geleverd verlangt Veilinghouder de betaling voor het leveren van de Goederen.
5. De Veilinghouder behoudt zich het recht voor rente te rekenen op facturen welke langer openstaan dan de vervaldag met een percentage dat door de Nederlandse wet is voorgeschreven of ter hoogte van 1% van het openstaande bedrag per maand.
6. Indien er geen volledige betaling op de vervaldag van de factuur is ontvangen behoudt de Veilinghouder zich de volgende rechten toe:

1. Het verlangen van vooruitbetalingen voordat Goederen geleverd worden vanaf de vervaldag van de openstaande factuur.
2. Het weigeren om de levering van niet-geleverde Goederen doorgang te laten vinden zonder enige aansprakelijkheid voor niet-levering of vertraging in de aflevering van de Goederen.

IV.Beschrijvingen

Beschrijvingen en kwaliteitsaanduidingen zijn naar beste weten en kunnen gevormd door de Veilinghouder en zijn gebaseerd op diens lange ervaring, doch deze moeten worden gezien als de persoonlijke mening van de Veilinghouder. Alle Goederen worden verkocht in de staat waarin zij zich tijdens de toeslag bevinden. Afwijkende beoordelingen van Goederen door graderingsinstituten zijn geen grond voor retouren van gekochte Goederen. Type- en vertaalfouten kunnen voorkomen en zijn geen grond voor het retourneren van gekochte Goederen.

V.Levering

1. Tenzij schriftelijk anders overeengekomen worden Goederen geleverd op het door de Hoogste Bieder opgegeven adres. Daarnaast is het mogelijk om de Goederen na afspraak af te halen ten kantore van Veilinghouder. In alle gevallen van vertraging van de levering door overmacht vervalt de aansprakelijkheid van de Veilinghouder. Onder overmacht worden onder meer beschouwd; het eigenmachtige optreden, extreme weersomstandigheden met alle gevolgen van dien, oorlog, brand, overstroming, ontploffing, ongevallen,

staking en andere arbeidsconflicten, vertraging van levering door leverancier en vertraging van transport.

2. Indien de Veilinghouder niet in staat is om de Goederen af te leveren door acties of omstandigheden waar de Hoogste Bieder verantwoordelijk voor is, dan zal de Veilinghouder de Goederen in bewaring nemen en/of op te slaan tot dat de Hoogste Bieder de Goederen daadwerkelijk in ontvangst kan nemen. Het risico hiervan draagt de Hoogste Bieder, de kosten die het in bewaring nemen/opslaan met zich meebrengen draagt de Hoogste Bieder.
3. Beschadigingen of klachten dienen door de Hoogste Bieder binnen 8 dagen na ontvangst van de Goederen aan de Veilinghouder kenbaar te worden gemaakt om aanspraak te kunnen maken op vervangende Goederen of terugbetaling van de koopsom.
4. Belastingen, import- en exportkosten samenhangende met een levering dienen door de Hoogste Bieder te worden voldaan. Het weigeren om een levering in ontvangst te nemen, om welke reden dan ook, is geen legitieme reden om de zending te retourneren. Schulman B.V. is gerechtigd om alle genoemde kosten in deze paragraaf op de Hoogste Bieder te verhalen.
5. De verzendkosten voor objecten tot twee kilo bedragen binnen Nederland 15,00 euro, buiten Nederland 30,00 euro. Indien de verworven kavels het maximum totaal gewicht van twee kilo overschrijden zullen de verzendkosten per individueel geval worden bekeken en verhoogd.
6. Lots kunnen niet worden teruggezonden en worden verkocht zoals zij ter tafel komen.

VI. Risico en Eigendomsrecht

Het eigendomsrecht blijft bij de Veilinghouder namens de aanbrengrer totdat de Goederen, inclusief kosten en renten, volledig betaald zijn door de Hoogste Bieder. De Hoogste Bieder draagt het risico vanaf het moment van toeslag.

VII. Retourneren van Goederen

1. Eventuele retouren worden pas geaccepteerd na schriftelijke bevestiging door een vertegenwoordiger van de Veilinghouder. Eventuele terugbetalingen worden pas uitgevoerd na ontvangst van de Goederen en een schriftelijk akkoord tot terugbetaling door de Veilinghouder.
2. Veilinghouder verplicht zich niet om retouren te accepteren welke beschadigd of schoongemaakt zijn, ongeacht op welke manier dit is gebeurd.
3. Veilinghouder garandeert dat alle Goederen authentiek zijn, tenzij anders aangegeven. Retouren worden slechts geaccepteerd indien welbekende experts schriftelijk bevestigen dat de Goederen vervalst zijn of wanneer de beschrijving van de Goederen volkomen afwijkt van de geleverde Goederen. In het geval van een dispuut over de expert(s) tussen Hoogste Bieder en Veilinghouder behoudt de Veilinghouder zich het recht voor om een

expert aan te wijzen om een oordeel te vellen, welke de Hoogste Bieder onomstotelijk zal aanvaarden.

4. Afwijkende beoordelingen van Goederen door graderingsinstituten zijn geen grond voor retouren van gekochte kavels.
5. Terugbetaling van de 3% extra commissie op Goederen aangekocht door middel van het internet live biedsysteem is niet mogelijk.

VIII. Beperking van aansprakelijkheid

1. De Veilinghouder is niet aansprakelijk voor verlies of schade in welke vorm dan ook geleden door de Hoogste Bieder voortvloeiende uit de aankoop van Goederen bij de Veilinghouder.
2. De Veilinghouder is niet aansprakelijk voor verlies of schade in welke vorm dan ook geleden door de Bieders voortvloeiende uit het gebruik van het Internet Live Biedsysteem of het niet-functioneren van het betreffende systeem.
3. De verzending van Goederen vindt plaats op instructie van de Hoogste Bieder. Het risico ligt bij de Hoogste Bieder, de aansprakelijkheid en vergoeding van Veilinghouder aan Hoogste Bieder bij verlies, beschadiging of diefstal is beperkt tot de verzekering van de Veilinghouder.

IX. Salvatorische clause

Indien er bepalingen in deze algemene voorwaarden niet effectief of niet uitvoerbaar blijken te zijn, of na sluiting van de overeenkomst niet effectief of uitvoerbaar worden, of tegenstrijdig zijn met de Nederlandse wet, heeft dit geen invloed op de naleving van het contract in zijn geheel, alle overige bepalingen blijven ongewijzigd van kracht. De niet effectieve of niet uitvoerbare bepaling dient te worden vervangen door de effectieve of uitvoerbare regeling, die het dichtst bij de economische doelstelling in de buurt komt, die de overeenkomst sluitende partijen met de niet effectief blijkende resp. niet uitvoerbare bepaling beoogd hebben.

X. Toepasselijk recht en jurisdictie.

Deze overeenkomst wordt beheerst door en geïnterpreteerd in overeenstemming met de Nederlandse wet. Eventuele geschillen vallen onder de uitsluitende jurisdictie van de gerechtelijke instanties in Amsterdam. Alleen de Nederlandse tekst van deze voorwaarden is rechtsgeldig.
